What is EasiPREP CBT QuestionMaker?

EasiPREP CBT QuestionMaker is an easy-to-use and cost-effective software product that allow academic institutions and organizations to create and administer computer-based tests and exams to their students using their own questions.

Why EasiPREP CBT QuestionMaker?

Computer-based assessments offer costs and time savings in the administration of exams. Questions can easily be re-used, exam malpractices eliminated and tests and exams conducted more frequently to identify and improve on learning gaps amongst other benefits.

How does it work?

EasiPREP CBT QuestionMaker comes as a Server and Clients package that can be installed on any Microsoft Windows computer network using wired or wireless interconnectivity.

Exam questions can be created in an easy-to-use authoring tool on the CBT Server or on any computer on the network using the Remote Authoring tool. Questions can also be created offsite using any of the standalone Authoring tools and later imported into the server question bank from any computer on the network.

Students log in from any computer on the network with EasiPREP CBT Client and can take the tests and exams assigned to them based on the defined settings for such tests and exams. Students may or may not be able to view results and review questions after exams depending on configured settings.

Product Features

- Automatic questions and answers shuffling to prevent cheating
- Support for multiple question types and up to 5 answer options
- Remote question authoring and multiple question import formats
- Students can skip and review questions just like normal exams
- Support for diagrams and equations for science subjects
- Exams and test sessions audit log for academic accountability
- Results export to Excel & CSV formats and many other features...

Product Benefits & Applications

EasiPREP CBT QuestionMaker offers numerous benefits:

- Cost savings in exam materials and administration logistics
- Time and cost savings in grading and collating results
- Ideal for CA Tests, Mock Examinations and Instant Class Assessments
- Reduce or eradicate cheating and examination malpractices
- Administration of examinations with minimal supervision and invigilation
- Ideal for HR & Staff Assessments, Employment & Screening Tests & Exams
