WHAT IS EASIPREP?

EasiPREP is an education technology firm providing innovative electronic assessment and examination preparation products, solutions and services. EasiPREP CBT products allow educational institutions and schools to create and administer examinations and assessments for their students using the school lab computers without the need for internet access and to automatically grade and provide results for these paperless but computer-based examinations within minutes after the conclusion of each examination session. EasiPREP CBT products also allow students using school lab or their own personal computers and laptops with or without internet, to practice and prepare for major examinations like NECO SSCE, WAEC SSCE, JAMB-UTME, SAT, TOEFL, GRE and GMAT using a databank of over 24,000 questions and answers covering 13 subjects.

EasiPREP places particular emphasis on accuracy of information considering the obvious importance to academic excellence, ease-of-use and flexibility. As a result, the answers to the questions in the databank have been provided by our team of seasoned teachers and examiners with minimum of 10 years experience as WAEC or NECO examiners.

EasiPREP CBT product for individual examination preparation by students on their own computers and laptops is known as the EasiPREP CBT Student Edition whereas the one for use on school computer network is the EasiPREP CBT School Network Edition.

WHAT MAKES EASIPREP DIFFERENT OR UNIQUE?

There are a lot of similar products to the EasiPREP CBT Student Edition containing past questions and answers masquerading on the market as examination preparation solutions while actually capable of causing failure for students for several reasons. EasiPREP CBT products and solution stand out from the pack for several reasons including:

- EasiPREP CBT products do not require internet connection or rely on the internet to function unlike some competitors who bring the additional burden and cost of internet access.
- EasiPREP CBT products question answers and solutions are provided by experience teachers and examiners thus guaranteeing academic accuracy unlike most competitors who simply copy from past question booklets
- EasiPREP CBT products are registered with relevant authorities and our company is a well known brand and duly registered.

- EasiPREP CBT products automatically randomize questions and answers, thus making it reducing or eradicating cheating and exam malpractices.
- EasiPREP CBT School Network Edition that comes with a databank of over 24,000 questions and also allows schools to create and administer tests and exams using their own questions is a first of its kind in the country.

WHAT IS EASIPREP CBT SCHOOL NETWORK EDITION?

EasiPREP CBT School Network Edition is a software product that allow schools to **create and administer their own computer-based tests and exams using their own questions and on their own school computer network or computer lab**, in addition to being bundled with **over 24,000 questions and answers across 13 subjects for JAMB UTME and WAEC and NECO SSCE** that students in senior secondary schools can practice and prepare with and which can be used to test and examine these students.

EasiPREP CBT School Network Edition offers many features which make it unique and make it ideal for exam preparation and administration, such as:

- Automatic shuffling of questions and answers to prevent or eliminate cheating even when students sit beside each other for the same exam or test because the order of their questions and answers will be different
- **Support for diagrams and equations in both questions and answer options, making it ideal for mathematics and science subject tests and examinations**
- Support for multiple question types including true or false, yes or no and multiple choice questions with up to 5 options (i.e. A to D or A to E choices as may be required)
- **Students can skip questions, come back to unanswered questions and review questions just like in normal examinations and tests**
- Results of tests and exams are stored on the central server and can be exported to Microsoft Excel and CSV formats
- **Support for Teacher console where teachers can set and import exam questions into the system from anywhere on the school network or computer lab**
- Support for setting questions using normal word processors like Microsoft Word, WordPad or Notepad and importing these questions automatically into the EasiPREP CBT Server
- Every student and teacher on the system has individual and unique username and there is a record of all activities on the EasiPREP CBT School Network Edition for accountability purposes.

HOW DOES IT WORK?

EasiPREP CBT School Network Edition comes as a Server and Clients package that can be installed on any school computer lab or computer network using wired or wireless interconnectivity and does not require the internet to function.

Exam questions can be created in an easy-to-use authoring tool on the EasiPREP CBT Server or on any computer on the network using the EasiPREP CBT Teacher Authoring tool (i.e. Remote Console). Questions can also be created offsite using any of the standalone Authoring tools or general word processors like Microsoft Word, WordPad or Notepad in a defined format and then later imported into the EasiPREP CBT Server question bank from any computer on the network.

Students log in from any computer on the network with EasiPREP CBT Client and can take the tests and exams assigned to them based on the defined settings for such tests and exams. Students may or may not be able to view results and review questions after exams depending on configured settings.

The results of exams and tests are automatically saved on the EasiPREP CBT Server and can be viewed using the EasiPREP CBT Remote Console from anywhere on the school network (i.e. principal or vice-principal's office).

WHY DO I NEED IT?

EasiPREP CBT School Network Edition offers numerous benefits to schools and their students and the ability to conduct your own exams and tests using computers material and time costs savings amongst other benefits, some of which are as follows:

- Your students can easily prepare for examinations like JAMB UTME, NECO and WAEC SSCE with the pre-bundled databank of over 24,000 questions and answers without demands on teachers.
- Your students can get familiar over time with computer-based exams which would not make the JAMB UTME being delivered in the computer-based format strange to them.
- Your school can save lots of money spent in buying materials for paper-based tests and exams as well as the time spent marking time by simply administering your tests and exams using the EasiPREP CBT School Network Edition and get instant results.

- Your school can now administer tests, mock exams and assessments as frequently as you want to determine the weak points of your students and improve on them without high cost in time and personnel to administer such tests and exams.
- Your school can say bye-bye to grading or marking errors, missing results or scripts, teacher-influence in markings and other associated problems.
- Your school can now reduce or eliminate exam malpractices because EasiPREP CBT randomizes questions and answers, making it extremely difficult to cheat in exams even for students sitting side by side because they don't get the same questions in the same order.

HOW DO I GET IT?

EasiPREP CBT School Network Edition and other products are available directly from any of the branch offices of EasiPREP in the country or from authorized resellers and partners across the country.

You can contact EasiPREP or our representative or authorized partners for pricing information and product presentations and demonstrations as well as information on how to deploy the product for your school or academic institution.

FREQUENTLY ASKED QUESTIONS

Here are some of the frequently asked questions and answers on our EasiPREP CBT products and solutions:

▪ **What is the meaning of CBT in the EasiPREP CBT product names?**

The CBT is an acronym for Computer-Based Test or Computer-Based testing which is one of the most popular terms about computer-based or computer-assisted assessment in this part of the world.

▪ **What editions of your EasiPREP CBT products are available?**

EasiPREP CBT products are available in the following editions:

- a. EasiPREP CBT Student Edition for use on personal computers and laptops of students allowing the student to practice and prepare bundled questions and answers.
- b. EasiPREP CBT School Network Edition for use on a school computer network or computer lab with centralized storage of student, test and examination information. Schools can create their own exams with their own questions and answers.
- c. EasiPREP CBT DVD Edition for use on a Home DDVD player such that the remote control works like a mouse for answering questions. Works also on computers with DVD drives.
- d. EasiPREP CBT Internet Edition for use on our website at www.easiprep.com so that students can practice anywhere and anytime as long as they have internet access.
- e. EasiPREP CBT Android Edition for use on smart-phones and tablets like Samsung Galaxy Tab that run the Android OS. Does not require internet connection on the phones or tablets to work.

▪ **Do EasiPREP CBT products require Internet Access or Internet Connection for usage?**

EasiPREP CBT products do not require internet access or internet connection for them to work or to be used. The only EasiPREP product that requires internet connection is the Internet Edition which is accessed primarily on our website at www.easiprep.com

- **What years are covered in your practice questions and answers for JAMB UTME and WAEC and NECO SSCE?**

EasiPREP CBT products come bundled with questions and answers covering JAMB UTME and WAEC & NECO SSCE from 2000 till date.

- **Some CBT practice products for students include questions and answers from 1978 till date. Why is yours just from 2000 till date?**

Anyone in the educational industry knows that syllabuses and curriculum for JAMB UTME as well as WAEC SSCE have changed over the years. Using past questions and answers from 1978 is liable to lead to confusion and negative results because such old questions that are no longer in the syllabus have no benefits whatsoever to the students using them. Products packing questions that old as 1978 evidently lack knowledge of the education market and lack the input of seasoned teachers who should have advised appropriately. Marketing a huge databank of questions and answers without consideration for the relevance and currency of such questions is generally the hallmark of content without quantity marketers.

- **Why are your CBT products more expensive than most of the others available on the market?**

We believe that quality comes at a price, particularly in the academic world. There are public schools which are cheap or free but discerning parents still send their wards at high cost to private schools. We believe such parents are not foolish.

- **What makes EasiPREP different from other vendors and EasiPREP CBT products different from others?**

EasiPREP is unique as a company focused on producing electronic assessment and computer-based examination and preparation solutions and with a wide and continuously growing array of products unlike competitors packaging only past questions and answers as opportunists for a burgeoning market culling questions from past questions booklets generally available in the market. EasiPREP CBT products have the input of our consultants who are seasoned examiners with decades of experience and as such, of substance and effective in their designated use. EasiPREP CBT products also boast of unique technology such as the Interactive DVD technology that is not offered by any other competitor in the market.

- **My school is interested in EasiPREP CBT School Network edition but we don't have all the money at once. What can you do about it?**

EasiPREP can allow you to make payments in installments for the EasiPREP CBT School Network edition. We also have funding arrangements with a couple of banks. You can discuss any proposed arrangement with your assigned EasiPREP Sales Representative.

- **We don't have as many computers for a specific category of pricing for EasiPREP CBT School Network Edition but need more user accounts for our students. Is there a way to resolve this?**

EasiPREP offers support for computers in multiples of 10 and user accounts in multiples of 50 to be calculated or arranged as suitable as possible for the customer. The general categories in our standard quotes are not cast in stone and can be adjusted to fit the needs of the customer. Discuss your requirements with your EasiPREP Sales Representative.

- **Can we use images and equations in our questions and answer options on EasiPREP CBT School Network Edition because those are more or less mandatory for Mathematics and Science subjects?**

Yes. EasiPREP CBT School Network Edition supports the use of images, equations and diagrams in questions and answer options so that tests, assessments and examinations can be set for subjects like Mathematics, Further Mathematics, Physics, Chemistry and other science subjects.

- **How many of our own questions can we store in the EasiPREP CBT School Network Edition?**

- **Will all our teachers have to come to the EasiPREP CBT School Network Edition Server to create and import questions?**

No; you do not have to bear with such inconvenience. EasiPREP CBT School Network Edition comes with the EasiPREP CBT Remote which can be installed on the computers of teachers on the school network and then used to create and import questions into the system without having to use the EasiPREP CBT Server.

- **Can our school teachers easily convert their questions already done in Microsoft Word and put them on the EasiPREP CBT School Network Edition?**

Yes. Questions and answers prepared in Microsoft Word can be easily converted and imported into the EasiPREP CBT School Network Edition including the diagrams, images and equations in the questions. The steps are available in the EasiPREP CBT User Guide. You can request demonstration of from EasiPREP Sales Representative.

EasiPREP also supports a Plain Text question import format known as the EasiPREP CBT Question format. This allows questions and answers to be prepared in any word processor even as simple as Notepad and the questions and answers imported into the EasiPREP CBT School Network edition with a few mouse clicks.

- **Can primary schools use your EasiPREP CBT School Network Edition product?**

Yes. Computer education is already being taught in some primary schools from primary 4 to 6. EasiPREP CBT School Network Edition can be use with such senior primary school students. A primary school edition bundled with about 1,500 questions in English and Verbal Reasoning and Mathematics and Quantitative aptitude suitable for preparation for Common Entrance examinations is available.
